

LIFEPAK® CR2

defibrillator cellular

Features

- Easy to use
- Cellular connectivity
- Self-monitoring
- Location services
- Child mode
- Bilingual

You can't predict when an emergency strikes, but you can be prepared.

Sudden cardiac arrest (SCA) can happen to anyone—anywhere. Immediate treatment is vital. A victim's chance of survival dramatically decreases for every minute without treatment¹. That's why public access defibrillators are so important.

- **Metronome and CPR coaching**
Sets an effective pace and audibly guides users.
- **QUIK-STEP® electrodes**
Peel directly off the base for faster placement
- **Child mode**
Child mode delivers lower energy levels appropriate for young children without having to change electrodes.
- **ClearVoice™ technology**
Detects background noise and adjust tones and voice prompts to ensure they can be heard clearly in noisy environments.
- **Cellular connectivity**
Device will use a 4G cellular connection and/or Wi-Fi to communicate with LIFELINKcentral™.
- **LIFELINKcentral AED Program manager**
Monitor AED programs by tracking AED status, sending patient data to hospitals, and giving device specific location information.
